*With wellness and sustainability at its heart, Virgin Atlantic's new A350-1000 has launched a host of in-flight essentials that reflect the airline's commitment to flying the cleanest, greenest and youngest fleet in the world.*

Back in September, Virgin Atlantic's A350-1000 took to the skies with the aim of revolutionising the services on board, down to the very toothbrush keeping you refreshed. With expert design input from Galileo Watermark, Virgin Atlantic has transformed its airline amenity kits into the most sustainable 'Goodie Bags' in the sky.

Across the fleet in both Upper Class

and Premium cabins, each Goodie Bag is made from responsibly-sourced, FSC-certified recyclable kraft paper and filled with sustainable travel essentials to enjoy onboard, or to take away and reuse at home.

In Economy, sustainable items such as eye masks, ear plugs, dental kits, socks and pens will be available on request, ensuring a reduction in single-use products and waste production. Comparing the old amenity kits to the new Goodie Bags, there is a saving of 945 tonnes of plastic per year, equal to the weight of more than six Airbus A350-1000 aircrafts.

Two beauty houses offer the very best ways to be kind to skin and the environment as well. In the Upper Class amenity kit and Clubhouse bathrooms, you can find creams and balms from REN Clean Skincare with natural bioactive ingredients, and there are eco-friendly Aveda haircare products, designed with plant essences,

in the Clubhouse showers and spas. Not only that, Virgin Atlantic's much-loved Upper Class sleep suits have also undergone a complete makeover. The new 'Loungewear' range is made of a soft cotton-blend jersey fabric in three different sizes and comes in a reusable bag. Available to all customers on night flights and on request on day flights, its subtle design can easily be worn off the plane, through the airport and into your living room.

Keep an eye out for a few more stylish details, such as new almond gold Wilbur and Orville salt and pepper pots (famously the most pinched item aboard Virgin Atlantic), metal napkin rings, bedding designed to reduce wash loads, and a padded and fitted sheet for enhanced traveller comfort. Each element, thoughtfully selected and designed by Virgin Atlantic, will ensure you have a restful and bright future of flying ahead.

**IN FOR A TREAT**

*Upper Class Goodie Bags*

- REN Clean Skincare products – including lip balm, hand cream and face cream
- A full size @BambuuBrush toothbrush
- A light-blocking satin eyeshade with Velcro fastening to fit all shapes and sizes
- Socks with a contemporary design inspired by the destinations they fly to
